

Low-Cost "MINI-CAT" Label Rewinders

MC-11

The MINI-CAT (MC) Label Rewinders are the world's most popular low-price Label Rewinders. They are capable of rewinding label rolls up to 125mm wide (115 mm for MC-11), up to 220 mm in diameter at speeds up to 50 cm/sec.

The **MC-10** has a 76 mm diameter vane style core holder. You can also use the included "coreless rewind" feature to rewind directly on-shaft.

The **MC-11** includes a precision-crafted Adjustable Core Holder that adjusts in seconds to accept any core diameter from 25- to 101-mm.

Both MINI-CATs use LABELMATE's proprietary Constant Adjustable Torque™ ("CAT") technology to achieve impressive, reliable performance at an unprecedented low price. A special motor, designed specifically for the MINI-CATs, offers bi-directional operation and trouble-free performance. A switch, on the power supply, conveniently controls the amount of rewind force. No awkward, troublesome belts or clutches are used and no speed adjustments are required.

Popular & Economical Label Rewinders.

- **New built-in potentiometer**
- **Speed up to 50 cm/sec.**
- **Direction switch.**
- **5- Years Parts and Labour Limited Warranty.**

The MINI-CAT automatically adjusts to any printer speed up to 50cm/sec and even allows label back-feeding automatically, if your printer requires it.

The MINI-CATs have an inner label flange to keep the edge of the label web aligned as the labels are being rewound. Also available is an optional Adjustable Paper Guide (APG-MC) that mounts directly to the MC-10 or MC-11 base plate and guides the outer edge of the labels. For the MC-10, an optional plastic Outer Flange (2ndFlange MC-10) is also available. The **new built-in potentiometer** allows to control the amount of rewind speed/torque. No awkward, troublesome belts or clutches are used and no speed adjustments are required.

The MINI-CAT features a 5-Year Parts and Labour Limited Warranty, the longest in the industry (1-year on power supply).

MC-INTEGRATED

The MINI-CAT Integrated Rewinder is the perfect supplement for any desktop barcode printer, creating a stand-alone unit to print and rewind the backing paper in combination with the peel-off function of your barcode printer. Without the peel-off function, the MINI-CAT Integrated Rewinder allows to roll the printed labels on a 1" core holder.

It keeps your workplace clean and avoids backing paper falling on the ground.

Cables to collect the printer power for the rewinder are available on request.

Mini-CAT Integrated Rewinder

- Speed up to 890mm/s.
- 5- Years Parts and Labour Limited Warranty.

Technical specifications	MC-Integrated
Max Roll Diameter	85 mm
Core diameter	25.4mm (1 inch)
Max Label Width	112mm
Max roll Weight	6.8kg
Dimensions	190 x 225cm
Weight	
Max speed	Same as the printer
