Big Electronic Dispenser Series

Model DN 01

Dispenser with fanfold accessory

Big Electronic Dispenser Series is the ideal solution for your label handling operations like the food packaging sector. Our dispenser can be used with both roll of labels and fanfold through the optional fanfold accessory. Versatile, simple to use, reliable and tough, our big electronic dispenser will make it easy for you to apply labels in your manufacturing process. Available in two different versions: the model DN 01 can handle labels up to 150 mm wide, while the model DN 02 is able to handle labels up to 210 mm wide! All the other features are common to both models.

Electrical Features

- Power supply of 220/18 Vac
