Reversible Reel-to-Reel Machines Labels - Meters - Feet Counter

Mechanical Core

Pneumatic Core

Adjustable Sliding
Tensioner

Control Panel

This device was designed to be used by anyone manufacturing or using rolls of self adhesive labels and thanks to its possibility of configuration, it can have both pneumatic and mechanical interchangeable core holders in order to fit different types of cores.

The device has a base price which doesn't include the core holders, that cost has to be added with the ones for the different types of core holders necessary for the use that the device is aimed for.

The available core holders at the moment are:

- ▶ 1", H220, Pneumatic only
- ▶ 45mm, H160, H200 Mechanical
- ▶ 76mm, H160, H200 Mechanical
- ▶ 76mm, H200, Pneumatic

In addition, through 3 fastening holes with a M6 thread by 120° on the base of the drive shaft, the users can produce their own core holder that can better fit their needs and put it into the driveshaft seat.

Features

- ▶ 220V Power Pack
- ▶ Table H=Cm. 80 W=Cm. 95 D=Cm. 60
- ▶ Interchangeable Core Holders
- ▶ Mechanical Setting for the roll consistency
- ▶ Maximum Outside Diameter Roll 400mm
- ▶ Maximum Label Height 220mm
- ▶ Easy Roll Removal
- ▶ Backlit Display with 2 lines 16 Characters
- ▶ Counting labels, meters, feet
- ▶ Preset settings on counting with automatic stop
- ▶ Reversible Rotation
- ▶ Speed Adjustment
- ▶ Face in and and Face Out Labels on both core holders
- ▶ Table assembling charged to the customer
- ▶ Packaging Crate
