Javelin® Professional-line Printers

High performing & reliable full colour desktop card printers for either single or dual-sided printing solutions

Javelin Professional-line printers are part of the latest generation of NBS's most popular card printer family. Designed and built for demanding environments, the Javelin Professional-line printers deliver reliability and performance for high-volume card production in either single or dual-sided, monochrome or full colour printing situations. Expansion options for networking and card encoding give the Professional-line printers the flexibility to meet your specific requirements.

High Performance

- Vibrant, true-to-life colours
- High volume card throughput
- Large capacity card feeder available
- Rugged metal enclosed (J360i)

Reliable and Flexible

- Print dual-sided or single-sided
- Revolutionary angled card feeder design means fewer mis-fed cards
- Self-aligning printhead design for consistently uniform print quality

Innovative and Easy-to-Use

- Easy plug and play USB or USB with Ethernet interface simplifies configuration
- Printhead bracket opens wide for easy ribbon access
- 16 character LCD screen for printer status and error reporting messages
- Ribbon image counter and ribbon-low notification
- Reject bin holds cards that fail to encode correctly (J430i)

Encoding and Network Connectivity Options

- 3 track magnetic stripe encoding (HiCo/LoCo)
- Contact and contactless smart card encoding capabilities
- Built-in 10/100 Ethernet for printer networking simplifies device management and eliminates the need for third party external device
- Unique "JX" features

Ideal for:

- Employee ID cards
- Student & faculty ID cards
- Access control cards
- Gift cards
- Financial cards
- Visitor ID cards
- Personalized membership cards
- Loyalty cards
- Government Licenses

... and more!

UPGRADE TO "JX" AND GET MORE FEATURES

For even more enhanced capabilities, consider upgrading your Javelin printer to JX status. With the integration of our optional JX board, Javelin printers can operate as a true network printer without a dedicated PC and provide a range of other unique performance and security options.

ADD JAVELIN5 INTUITIVE CARD DESIGN SOFTWARE

Javelin5 is a multifunctional software application that offers easy and flexible features to manage any card design and printing need. From the back office card production to the low-end personalization solution, Javelin5 offers the easy-to-use solution with total control of your options.

EMV BRANCH ISSUANCE SOFTWARE

Couple your Javelin with Xpressi™ software for an EMV branch card issuance solution that is cost-effective and easy to implement. Supporting multiple EMV configurations, chip types and even printer brands with one system, this solution gives an issuer the flexibility to keep their future expansion and operation options open for change.
